Dear Marko,

This is a statement of **thanks and appreciation!**

The Property Committee, the congregation and I are extremely pleased with the restoration of the church sanctuary. **You understood our vision**, made suggestions that expanded the vision and identified the materials that would endure over time.

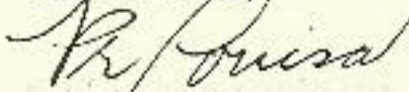

Your patience and understanding were commendable, as the Property Committee tried to determine how best to realize the ideal worship space within the budgetary constraints.

Most amazing was the ownership and pride the various work crews exhibited. They were more than excellent craftsmen. It was evident that they enjoyed the new look they were creating and concerned that we too were pleased.

The comment made by several members the Sunday we resumed worship in the newly renovated sanctuary says it all, **"Surely the Lord is in this place"**.

Thanks! for premium service, for premium workmanship and a spirit that honors all humanity.

Peace and Love,

The Rev. Louisa D. Groce
